1st – 12th July

WHAT IS IT ABOUT?

The specific objectives of our project are:

1. Increase awareness among young people about the importance of caring for the environment, how to treat it and how to protect it.
2. Familiarize and involve them with the work carried out by environmental associations.
3. Know the environmental realities in the different countries participating in the project and analyze the differences, both at the associative and legislative level.
4. Improve the ICT skills of the participants
5. Disseminate the results of this project as much as possible, in order to make the greatest number of people aware of the subject matter.

For young people it will be a unique opportunity to get closer to the environment, get to know it and feel it personally, know what the needs are, how they can help improve it and raise awareness among those around them to do so.
